

Senator Steve Wilson

Chairman

Senate Energy and Public Utilities Committee

Senator Wilson,

I am writing in support of HB234. I am very unhappy that before I was born an important issue was decided in Columbus that the Ohio Power Siting Board, appointed by the Governor, could override our zoning laws and do whatever they want. The people on this board are not even voted in by the constituents, and are not even known to us.

Please get the vote back where it belongs. In the hands of the people.

Sincerely,

Michael Meyer
Ridgefield Townships
Huron County

Senator Steve Wilson

Chairman

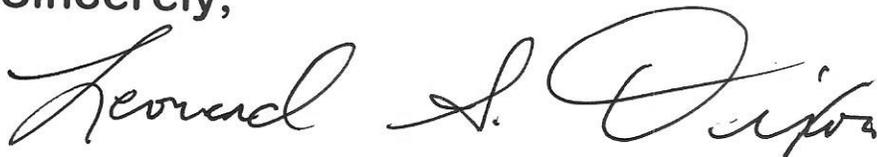

Senate Energy and Public Utilities Committee

Senator Wilson,

I am writing in support of HB234.

I understand that this committee wants to do what they think is for the good of the state. But they are not right on everything they think. When an issue comes up that is as volatile as the industrial wind turbines, then it needs to be decided fairly, one way or the other by the vote of the people.

Sincerely,

A handwritten signature in cursive script, reading "Leonard S. D'Amico". The signature is written in black ink and is positioned below the word "Sincerely,".

Senator Steve Wilson

Chairman

Senate Energy and Public Utilities Committee

Dear Sir,

I am writing to support bill HB 234. I am very fearful at what I have been reading about what this does to our eagle population. I know that the government has done their best to cover this up. But people are aware of what is going on around the world now. There are lots of places to read and gain knowledge if you really care. A man in a neighboring state stands to get fined thousands of dollars and possible prison time for shooting 1 eagle, but our government says it is ok to put up these towers that have been proven to kill our eagles by the thousands. We all know that they have a limit, but when they reach that limit, then what? Do you make them turn them off? I am sure you "renegotiate" . I am appalled at the greed by the Audubon Society and will no longer support them.

Thank you,

Senator Steve Wilson
Chairman
Senate Energy and Public Utilities Committee

Senator Wilson,

I have always been so proud of our state. No we don't have the beautiful mountain views in Northern Ohio where I live, but the views are still beautiful to us! We have elected through the years some very honest and dependable Senators and Representatives. But I don't know what happened along the way. This "movement" has crossed our nation which it is not popular to disagree with. Things are happening, but some people are so hateful when you disagree that our citizens are just staying quiet. This is why we are in the place that we are in right now. But I wish to say this is all a horrible mistake. Someday our children will just shake their heads in dismay that our generation could be pushed into such poor decisions. These horrible wind turbines are not the answer.

Please accept my support of HB234. The vote needs to be back where it belongs. With the people who really care for the right reasons.

Thank you,

Nancy Bollinger
Peru Township
Huron County

Senator Steve Wilson
Chairman
Senate Energy and Public Utilities
Committee

Dear Sir,

I was watching our bald eagles before it became the popular thing to do. I remember when they were listed as endangered. I remember when the first nest was found in Huron County. I would go there to see them when the babies hatched. The ODNR would guard them all day to be sure they were safe from the public.

Now that they are no longer endangered, is it time to allow them to be killed off again? It is easy to research how many eagles are killed by these wind turbines. It's easy to find out how many eagles our government allows to be killed. But no one but company people are allowed on the property to count. And how many are lost to predators that aren't counted?

But money talks and the government wants to believe these wind companies that say this is not true. Regrets can be horrible. Once this is done, it's over for Northern Ohio. But one wrong decision can mean it's over for many a politician.
Please support HB234.

Thank you,

Judy Finley
