

Senator Steve Wilson

Chairman

Senate Energy and Public Utilities Committee

Dear Sir,

I am writing to you to voice my concerns on the topic of the wind turbines that may be introduced into our area. The staggering height alone is enough to put off anyone, but all the other issues that come with these turbines are unfair to the people who live nearby. If one is put just off the edge of your property you will lose much in the value of your home. Who will want to deliberately buy a home with the noise, shadow flicker, and the deep thumping as the giant blades pass their supporting tower. You will lose everything you have put into your home your entire life. All this without a vote! Does the government feel it is right to force this on its people? What has happened to our country?

Please accept my support of HB 234. Allow our people to vote on this controversial issue.

Thank you,

Roger L. Dickman
Ridgefield Twp.
Huron Co.

Senate Energy and Public and Public Utilities
Committee

Dear Sir,

I am writing to you today as a resident of Seneca County and Bloom Township. After much research I have changed my position on wind farms and ask you to give the residents the power to vote on this issue. Also would it be possible to put solar panels on the farmland not in use?

I have lived at our residents for 49 years and am saddened that we would not have any say in what sits in our backyard.

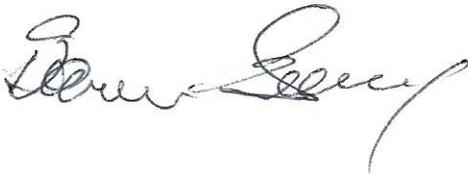

Thank you for taking the time to listen to our concerns.

Respectfully,

Bruce W Geary

Committee**

Dear Senator Wilson,

There are many good reasons for states to allow local governments to implement their own policies. Local officials and residents know what's important to them and often have a better understanding of how to achieve their goals. The importance of local knowledge in good decision making is one reason why state officials should defer to local governments.

Another reason is that by allowing local governments to implement different policies, we get a better understanding of what works and what doesn't.

Please support HB234. Bring the decision of wind turbines to the people.

Thank you,

*Lavonne D Ayres
Huron County
New Haven Twp*
