

January 12, 2020

Attn. Senator Steve Wilson, Chairman, Senate Energy and Public Utilities Committee

I am writing this letter in support of SB 234.

I grew up in a rural community. The opportunities that were available to me such as 4H and FFA had a large impact on my life which led me to my current occupation as an AgriScience Educator. I have a large respect for the agricultural community and hope to further the agricultural endeavors of my students.

Never before has a project have the potential to change so many communities as the industrial wind projects. These projects will change what are agricultural areas into industrial waste lands. With the passage of SB 234 it will give all residents of the affected area the opportunity to have a voice whether it is in favor or opposed to these wind projects.

I am asking that all Senators to support this bill so that local residents have the opportunity to be heard.

Sincerely,

Tanner Schoen  
Marysville, OH

Attn. Senator Steve Wilson, Chairman, Senate Energy and Public Utilities Committee

I am writing this letter in support of SB 234.

I grew up and currently live in Groton Twp. Erie County a rural community. I have been involved in the agricultural community my entire life. I farmed for many years, I operated a Grain Elevator, operated a Fertilizer Plant and started my own business in Waste Management.

I think residents should have a vote to keep our community as agricultural or turn it into Industrial community.

Attn. Senator Steve Wilson, Chairman, Senate Energy and Public Utilities Committee

I am writing this letter in support of SB 234.

I grew up and currently live in Groton Twp. Erie County a rural community. I have lived here all my life. I watch Eagles almost everyday fly over, I watch the Sunrise and Sunset and hate to see our community turned into a Industrial community.

I think residents should have a vote to keep our community as agricultural or turn it into Industrial community.

Never before has a project have the potential to change so many communities as the industrial wind projects. These projects will change what are agricultural areas into industrial waste lands. With the passage of SB 234 it will give all residents of the affected area the opportunity to have a voice whether it is in favor or opposed to these wind projects.

I am asking that all Senators to support this bill so that local residents have the opportunity to be heard.
