SSI - Calculation of SSI Formula Entitlements and Adjustments for Universities-Degree Attainment

Section: 381.140

Requires that 50% of the SSI appropriation for universities in each fiscal year be reserved for support of associate, baccalaureate, masters, and professional level degree attainment. Specifies that degree attainment funding be allocated to universities in proportion to each campus's share of the total statewide degrees granted, weighted by the cost of the degree programs.

Requires, for degrees including credits earned at multiple institutions, that degree attainment funding be allocated to universities in proportion to each campus's share of the student-specific cost of earned credits for the degree. Specifies that each institution receive its prorated share of degree funding for credits earned at that institution and that the cost of credits not earned at a university main or regional campus be credited to the degree-granting institution for the first degree earned by a student at each degree level. Specifies that the cost credited to the degree-granting institution not be eligible for at-risk weights and limits the cost credited to 12.5% of the student-specific degree costs, unless the student transferred 12 or fewer credits into the degree granting institution.

Requires that the count for degree attainment include degrees earned by students identified as Ohio residents in any term, weighted by a factor of 1, and degrees earned by students identified as out-of-state students during all terms that remain in Ohio at least one year after graduation, weighted by a factor of 50%. Requires that calculations for the count for degree attainment use the average of the previous three years' counts of associate, baccalaureate, masters and professional degrees. Limits, if a student is awarded an associate degree and later is awarded a baccalaureate degree, the amount funded for the baccalaureate degree to either (1) the difference in cost between the cost of the baccalaureate degree and the cost of the previous associate degree, or, (2) if the associate degree has a higher cost than the baccalaureate degree, the cost of the credits earned by the student after the associate degree was awarded. Specifies that in these instances the associate degree granting institution receive only the prorated share of the baccalaureate degree funding for the credits earned at that institution after the associate degree is awarded. Requires, if a student earns more than one degree at the same institution at the same degree level in the same fiscal year, that funding for the highest cost degree be prorated among institutions based on where the credits were earned and additional degrees be funded at 25% of the degree cost.

Requires that eligible associate and baccalaureate degrees counted in degree attainment be weighted by a statewide "at-risk degree" completion weight, calculated based on the at-risk factors of the individual student, determined by calculating the difference between the percentage of students with each risk factor who earned a degree and the percentage of non-at-risk students who earned a degree.
