

February 24, 2020

Dear Honorable Senator Burke,

I am concerned about the content of SCR10. In particular, I am concerned with the proposed OAC 3701-36-05 for the following reasons:

- * Using money to punish county health departments whose citizens decline a pharmaceutical product is inappropriate and unethical.
- * Government should not be using financial incentives to push a for-profit pharmaceutical product that is indemnified from liability.
- * Public posting of vaccine product consumption rates does not reflect true immunization rates.

I understand that this proposed rule went through the approval process and I regrettably was not aware of the language changes at that time. I respectfully request that you vote "No" on SCR10.

Sincerely,

Taylor Golden
