

My name is Cindy Morrow and I am an RN working in the Office of Opioid Safety at MetroHealth in Cleveland, OH. I have been working with Dr. Joan Papp and the Project DAWN team for several years now educating and providing naloxone (Project DAWN kits) throughout Cuyahoga County. From personal experience our Project DAWN team has been met with barriers that unfortunately have stopped a business, school, or an individual from receiving naloxone.

Please accept my wholehearted support for Naloxone Amendment to HB 341. Expanding further access to this lifesaving drug is truly vital in the battle of Substance Use Disorder! Thank you for your commitment in this effort.

Kindly,

Cindy Morrow, RN, BSN
