## STATE BOARD OF CAREER COLLEGES AND SCHOOLS BUDGET TESTIMONY

Presented by: John Ware, Executive Director

---

Chairman Kunze, members of the Higher Education Committee, my name is John Ware, Executive Director for the State Board of Career Colleges and Schools. On behalf of the members of the Board, I thank you for this opportunity to present testimony in support of the Fiscal Year (“FY”) 2020-2021 budget request for our agency.

The State Board of Career Colleges and Schools is responsible for monitoring and regulating 225 private career schools in the State of Ohio. These schools enroll over 37,000 Ohio students in 1,000 approved programs ranging from two-week certificate programs to four-year baccalaureate degrees. Career colleges and schools provide valuable career and workforce training and generally enroll higher percentages of non-traditional students than are served by other sectors of higher education. According to data compiled by the U.S. Department of Education’s National Center for Education Statistics, 70% of students who enroll in accredited career colleges are females, 30% are African-Americans and nearly 60% are age 25 years or older. Average graduation rates for career colleges exceed 45% and placement rates compiled by this agency for show that over 75% of career college students are placed after graduation. In addition to student enrollments, career colleges and schools employ over 5,000 faculty and staff and pay wages in excess of \$125,000,000.

The State Board of Career Colleges and Schools fulfills its statutory responsibilities by ensuring that programs, instructors, equipment and facilities are in compliance with sound educational standards as required by the Board's administrative rules. This is accomplished through periodic reviews and site visits conducted by the Board and its staff. Activities of the Board and its staff during FY 2018 included over 160 site visits, 125 new program and degree approvals, 27 new school certificates of registration, 138 renewals for existing certificates of registration, and over 750 program and degree re-authorizations.

Another part of the Board's oversight of registered schools occurs through the investigation of complaints filed by students or other interested parties. Corrective measures available to the Board range from consent agreements and civil penalties to the revocation of a school's certificate of registration. During FY 2018, the Board initiated 48 preliminary investigations, which included 40 student complaints. The vast majority of these complaints were resolved by the Board by obtaining voluntary compliance from registered schools. In addition to the Board's general school oversight responsibilities, the Board also maintains the Ohio Student Tuition Recovery Fund, financed by assessments to registered schools, that provides tuition recovery options to the students of closed schools.

The Board's budget appropriation recommended in the Governor's budget for FY 2020-2021 (\$540,260 per year) is identical the Board's FY 2019 funding level and the Board has requested no additional funding. The funding the Board received during the FY 2018-2019 biennium included a 6.7% reduction from the Board's FY 2017 funding level. Although some additional personnel and operational expenses are expected to increase during this biennium, the Board believes that it can absorb these increases through other cost savings including reductions to the Board's personal services line item.

During FY 2018 the Board collected \$577,000 in yearly fee revenue. Fee revenue has decreased over the past five years due to a reduction in the number of schools and programs. However, fee revenue for FY 2020-2021 biennium and future fiscal years is estimated to be in excess of \$550,000 per fiscal year. Thus, the funds requested for FY 2020-2021 should have no impact on GRF funds or any excess fee revenue the Board currently has in the 4K90 fund.

In conclusion, the State Board of Career Colleges and Schools shares the philosophy of the Office of Budget and Management who has emphasized the need for “prudent and efficient management” and “restraining the growth of state government.” These concepts are not new to the Board. For many years the Board has focused on internal efficiency and budget restraint as evidenced by the fact that the Board’s recommended budget for FY 2020 (\$540,260) and FY 2021 (\$540,260) remains lower than the amount appropriated to the Board in FY 1997 (\$584,094).

Thank you for your consideration. I would be happy to answer any questions that you might have.
