

Proponent Testimony for SB 37
Senate Ways and Means Committee
May 7, 2019

On behalf of the 386 people who have signed this letter, thank you for the opportunity to submit it as written testimony regarding proposed Senate Bill 37 for the Ohio Motion Picture Tax Credit.

This letter of support was created after hearing the tax incentive was in danger of being eliminated. In just a few days, 386 tax paying Ohioans have signed this letter. The supporters range from people who work in Ohio's motion picture industry to people outside of the industry who support the economic impact this industry has made in Ohio.

We the people support proposed Senate Bill 37 and to increase the Ohio Motion Picture Tax Credit to an annual cap of \$100 million. Raising Ohio's incentive cap to \$100 million will tell the world that we can sustain a year-round production industry, ensuring that we can compete for the biggest productions available and employ an even greater number of Ohioans.

Creating media content is the manufacturing of the modern age, and it brings economic impact wherever it is fostered. The success Ohio has seen, even with the current limitations of the credit, is real and demonstrable. The Motion Picture Association of America (MPAA) recently reported that nearly 35,500 people are directly and indirectly (hotels, caterers, carpenters, dry cleaners, etc.) employed by the motion picture and television industries in Ohio, with total wages earned exceeding \$1.2 billion.

When the tax credit was renewed last summer in 2018, it barely took one month to hit the \$40 million cap. Filmmakers wanted to film here and put Ohioans to work, but instead they had to take their business to states like Pennsylvania, New Mexico and Georgia due to their more available and robust incentive programs. These are jobs Ohioans did not have to lose to other states and this could be avoided in the future if the tax credit were to be increased.

Senate Bill 37 introduces important legislation that allows productions to only have a 90 day time period to start production. This legislation will protect Ohioans from productions that reserve the money for too long and either leave without starting their project or prevent more serious productions from starting their projects.

We urge you to please pass Senate Bill 37 and raise the annual cap on the Ohio Motion Picture Tax Credit to \$100 million. Let us continue to grow this industry and make Ohio a global production destination, so that we can bring more jobs to Ohioans and create a positive economic impact to our great state.

Thank you for your time.

Sincerely,

- | | | |
