**DETAILED ANALYSIS**

**Occupational license reciprocity**

The bill requires a licensing authority to issue a license or government certification under certain circumstances to an applicant who holds an out-of-state occupational license or who has a government certification, a private certification, or satisfactory work experience in a state that does not issue the respective license. The three circumstances under which a licensing authority must issue a license or government certification are described under “**Issuance to out-of-state license or government certification holders,**” “**Issuance to private certification holders,**” and “**Issuance to individuals with satisfactory work experience,**” below.¹

The bill requires each licensing authority to adopt rules as necessary to implement the bill.²

² R.C. 9.79(L).
Definitions

For purposes of the bill:

1. “Licensing authority” means a state agency or political subdivision that issues licenses or government certifications.

2. “License” means an authorization evidenced by a license, certificate, registration, permit, card, or other authority that is issued or conferred by a licensing authority to an individual by which the individual has or claims the privilege to engage in a profession, occupation, or occupational activity over which the licensing authority has jurisdiction.

3. “Government certification” means authorization from a licensing authority or the government of another state to an individual who meets qualifications related to a profession, occupation, or occupational activity to which both of the following apply:
   a. Only an individual holding the authorization may use a specific title or titles when advertising or holding the individual’s self out to engage in the profession, occupation, or occupational activity.
   b. An individual is not required to have the authorization to engage in the profession, occupation, or occupational activity in the respective jurisdiction.

4. “Out-of-state occupational license” means a license, certificate, registration, permit, card, or other authority that is issued or conferred by the government of another state to an individual by which the individual has or claims the privilege to engage in a profession, occupation, or occupational activity over which that state has jurisdiction.

5. “Private certification” means authorization from a private organization to an individual who meets qualifications determined by the organization related to the performance of a profession, occupation, or occupational activity and by which the individual may hold the individual’s self out as certified by the organization.\(^3\)

Issuance to out-of-state license or government certification holders

The bill requires a licensing authority to issue a license or government certification to an applicant if the licensing authority determines that all of the following apply:

1. The applicant holds either of the following:
   a. An out-of-state occupational license that authorizes the applicant to engage in the same profession, occupation, or occupational activity, and at the same practice level, as the license or government certification for which the applicant is applying in Ohio.

---

\(^3\) R.C. 9.79(A).
b. A government certification in the same profession, occupation, or occupational activity as the license or government certification for which the applicant is applying in Ohio in a state that does not issue an out-of-state occupational license for the respective profession, occupation, or occupational activity.

2. The applicant has held the out-of-state occupational license or government certification for at least one year and is in good standing in all jurisdictions in which the applicant holds an out-of-state occupational license or government certification to practice the same profession, occupation, or occupational activity for which the applicant is applying in Ohio.

3. The applicant was required to satisfy minimum education, training, or experience requirements or pass an examination to receive the out-of-state occupational license or government certification.

4. The applicant has not surrendered or had revoked a license, out-of-state occupational license, or government certification because of negligence or intentional misconduct related to the applicant's work in the same profession, occupation, or occupational activity for which the applicant is applying in Ohio.

5. The applicant pays a fee equal to the renewal fee required for license or government certification holders under the applicable law to the licensing authority (it is unclear what fee can be charged if there is no renewal fee for the license or government certification).

6. The applicant is not disqualified from obtaining the license or government certification because of a conviction, judicial finding of guilt, or plea of guilty to a disqualifying criminal offense specified on the list the licensing authority makes available pursuant to continuing law.

**Issuance to private certification holders**

The bill requires a licensing authority to issue a license or government certification to an applicant if the licensing authority determines that all of the following apply:

1. The applicant holds a private certification and has at least two years of work experience in the same profession, occupation, or occupational activity, and at the same practice level, as the license or government certification for which the applicant is applying in Ohio in a state that does not issue an out-of-state occupational license or government certification for the respective profession, occupation, or occupational activity.

2. The applicant is in good standing with the private organization that issued the private certification.

---

4 R.C. 9.79(B).
3. The applicant meets the requirements specified under (4) to (6) of “Issuance to out-of-state license or government certification holders,” above.⁵

**Issuance to individuals with satisfactory work experience**

The bill requires a licensing authority to issue a license or government certification to an applicant if the licensing authority determines that both of the following apply:

1. The applicant has at least three years of work experience in the same profession, occupation, or occupational activity, and at the same practice level, as the license or government certification for which the applicant is applying in Ohio in a state that does not issue an out-of-state occupational license or government certification for the respective profession, occupation, or occupational activity.

2. The applicant meets the requirements under (4) to (6) of “Issuance to out-of-state license or government certification holders,” above.⁶

**Criminal records check**

If a licensing authority requires an applicant under the law governing the applicable profession, occupation, or occupational activity to submit to a criminal records check to receive a license or government certification, an applicant must submit to the criminal records check to receive a license or government certification under the bill.⁷

**Examination on Ohio’s laws and rules**

If a licensing authority requires an applicant to pass an examination on Ohio’s laws and rules governing the applicable profession, occupation, or occupational activity to receive a license or government certification under the applicable law, the bill allows a licensing authority to require an applicant to pass the examination to receive a license or government certification under the bill.⁸

**Financial responsibility requirement**

If a licensing authority requires an applicant under the law governing the applicable profession, occupation, or occupational activity to satisfy a financial responsibility requirement to receive a license or government certification, an applicant must satisfy the requirement to receive a license or government certification under the bill.⁹ An example of this type of requirement is the requirement that an applicant for an auctioneer license must provide proof

of financial responsibility in the form of either an irrevocable letter of credit, cash bond, or a surety bond in the amount of $25,000 to receive an initial license.\(^{10}\)

**Decision to issue or deny a license or government certification**

If an applicant is the subject of a complaint, allegation, or investigation that relates to unprofessional conduct or an alleged crime pending before a court, administrative agency, or entity that regulates a license, out-of-state occupational license, or government certification, the bill prohibits a licensing authority from issuing or denying a license or government certification to the applicant until the complaint, allegation, or investigation is resolved.\(^{11}\)

The bill requires a licensing authority to provide an applicant with a written decision to issue or reject a license or government certification under the bill within 60 days after receiving a complete application. An application is not considered complete until any required examination or criminal records check (described under “Examination on Ohio’s laws and rules” and “Criminal background check,” above) is complete.\(^{12}\)

**Law regulating the practice of the occupation or profession**

An applicant who is issued a license or government certification under the bill is subject to the laws regulating the practice of the applicable occupation or profession in Ohio and is subject to the licensing authority’s jurisdiction. Additionally, the bill specifies that a license or government certification issued under the bill is considered a license or government certification issued under the laws regulating the practice of the applicable occupation or profession in Ohio. Provisions of law applicable to a license or government certification issued to an applicant who does not obtain a license or government certification under the bill apply in the same manner to licenses and government certifications issued under the bill.\(^{13}\)

**Exempt licenses**

The bill does not apply to any of the following licenses:\(^{14}\)

1. Licenses subject to the continuing law moratorium on the issuance of new fireworks manufacturer and wholesaler licenses.\(^{15}\)

2. Medical marijuana cultivator and retail dispensary licenses, which are subject to a limit on the number of licenses allowed at any one time.\(^{16}\)

4. Commercial fishing licenses.\(^{18}\)

5. Licenses issued under the Commercial Driver’s Licensing Law.\(^{19}\)

6. A permit issued to a nonlicensed individual to teach in schools under limited circumstances.\(^{20}\)

The bill does not apply to licenses that authorize a person to engage in a profession, occupation, or occupational activity as a volunteer.\(^{21}\)

**Political subdivision recognition**

Consistent with *Struthers v. Sokol*, the bill prohibits a political subdivision from prohibiting an individual who holds a license or government certification issued by a state agency under the bill from engaging in the respective profession, occupation, or occupational activity in the political subdivision’s jurisdiction. Under the Home Rule amendment to the Ohio Constitution, a municipal ordinance adopted under a municipality’s police powers cannot conflict with a “general law.” Under Sokol, the test for conflict is whether the ordinance prohibits what the state law permits or vice versa. Because state law under the bill requires issuance of a reciprocal license that allows an individual to practice in Ohio, a municipal ordinance that would prohibit what state law allows seemingly would be in direct conflict with the state’s “general law” for home rule purposes.\(^{22}\)

**Temporary training licenses**

Under continuing law, some state licensing authorities issue temporary training licenses that allow an individual who is working to obtain full licensure or gain supervised practice hours to engage in a profession, occupation, or occupational activity. The bill applies to these temporary training licenses.\(^{23}\)

**Limited time and limited basis licenses**

Under continuing law, some state licensing authorities currently issue licenses that allow an out-of-state professional to engage in a profession, occupation, or occupational activity for a

limited time or on a limited basis. Other laws exempt certain individuals from obtaining a license under the applicable law if the individual meets specified requirements and practices for a limited time. The bill’s reciprocity provisions do not apply to these limited time and limited basis licenses, and a licensing authority cannot require an exempt individual to obtain a license under the reciprocity provisions. However, the bill limits these licenses and exemptions to individuals who are not Ohio residents, thus requiring an Ohio resident to obtain a full license or a license under the bill.24
