RE: AWARD PRIZES FOR CURING DISEASES

Representative Blessing moved to amend as follows:

In line 362, after "5." insert, "Recognizing that the goal of the compact is to pool the potential savings of as many states and countries as possible to generate sufficient financial incentive to develop a cure for many of the world's most devastating diseases, the compact will respect the laws of each of these United States by adopting rules that establish ethical standards for research that shall be followed in order for a prize to be claimed. The compact, in the rules, shall establish a common set of ethical standards that embodies the laws and restrictions in each of the states so that to be eligible for claiming a prize the entity submitting a cure must not have violated any of the ethical standards in any one of the fifty states, whether the states have joined the compact or not. The compact will publish these common ethical standards along with the specific criteria for a cure for each of the diseases the compact has targeted.

So long as a researcher follows the common ethical standards in effect at the time the research is done, an entity presenting a cure will be deemed to have followed the standards. On or before January 1 of each year, the compact shall review all state laws to determine if additional ethical standards have been enacted by any of the fifty states and the federal government. Any changes to the common ethical standards rules based on new state laws shall be adopted and published by the compact, but shall not take effect in cure criteria for a period of three years to allow for sufficient notice to researchers.
