RESOLUTIONS REPORTED BY COMMITTEE

S. C. R. No. 21-Senator Balderson.

Cosponsors: Senators Beagle, Hoagland, Terhar, Schiavoni, Burke, LaRose, Uecker.

To urge the Congress of the United States to enact various bills advancing the development of an Appalachian storage hub.

WHEREAS, The Appalachian region, including parts of Kentucky, Ohio, Pennsylvania, and all of West Virginia, contains world class supplies of natural gas and natural gas liquids (NGL) that contribute to the country's energy dominance; and

WHEREAS, Harnessing those supplies by constructing an Appalachian storage hub involves major investments in infrastructure, including storage caverns and pipelines, and implementation of a significant jobs program for the residents of the Appalachian region; and

WHEREAS, Natural gas liquids are the major feedstock of the chemical industry and the region contains enough feedstock to attract \$35 billion in new chemical and plastics industry investment. Chemical and plastic industry investments of this scale could create 100,000 new jobs, \$28 billion in new economic output, more than \$6 billion in annual payroll, and nearly \$3 billion a year in new federal, state, and local tax revenue; and

WHEREAS, Enactment of the federal "Appalachian Energy and Manufacturing Revitalization Act" would improve the infrastructure permitting process by directing the Secretaries of Energy and Commerce to approve projects related to the Appalachian storage hub, identify the lead federal and state agency liaisons, and coordinate with them on designating the project; and

WHEREAS, The bill directs the Federal Energy Regulatory Commission (FERC) to consider relevant licenses and permits for the requisite pipeline infrastructure, and then requires the other federal agencies to complete consideration of their respective permits within 60 days of the completion of the FERC licensing or have their jurisdictional permits deemed approved; and

WHEREAS, In addition to the "Appalachian Energy and Manufacturing Revitalization Act," the "Capitalizing American Storage Potential Act" would make a regional NGL storage hub eligible for the Department of Energy's successful Title XVII loan guarantee program, and the "Appalachian Ethane Storage Hub Study Act of 2017" would help assess the feasibility and potential benefits of establishing a subterranean ethane storage and distribution hub in central Appalachia; now therefore be it

RESOLVED, That we, the members of the 132nd General Assembly of the State of Ohio, urge the Congress of the United States to enact bills advancing the development of an Appalachian storage hub, including all of the following:

--The "Appalachian Energy and Manufacturing Revitalization Act of 2017";

--The "Capitalizing American Storage Potential Act"; and

--The "Appalachian Ethane Storage Hub Study Act of 2017"; and be it

further

To reassert the principles of federalism found throughout the Constitution of the United States of America and embodied in the Tenth Amendment, to notify Congress to limit and end certain mandates, and to insist that federal legislation contravening the Tenth Amendment be prohibited or repealed.

WHEREAS, "It is incontestible that the Constitution established a system of 'dual sovereignty,'" *Printz v. United States*, 521 U.S. 898, 918 (1997); and

WHEREAS, The powers delegated to the federal government "are few and defined" (Federalist No. 45) and "its jurisdiction extends to certain

enumerated objects only" (Federalist No. 39); and

WHEREAS, The Constitution "leaves to the several States a residuary and inviolable sovereignty" (Federalist No. 39) and the powers retained by State governments are "numerous and indefinite" (Federalist No. 45); and

WHEREAS, By dividing government "into distinct and separate departments," allotting different powers and responsibilities to each, the Constitution protects "the rights of the People" (Federalist No. 51); and

WHEREAS, The United States Supreme Court, in *Printz v. United States*, 521 U.S. 898 (1997), recognized that "This separation of the two spheres is one of the Constitution's structural protections of liberty. 'Just as the separation and independence of the coordinate branches of the Federal Government serve to prevent the accumulation of excessive power in any one branch, a healthy balance of power between the States and the Federal Government will reduce the risk of tyranny and abuse from either front'" (521 U.S. at 921); and

WHEREAS, The Tenth Amendment to the United States Constitution states, "The powers not delegated to the United States by the Constitution, nor prohibited by it to the States, are reserved to the States respectively, or to the people"; and

WHEREAS, The Tenth Amendment defines the scope of federal power as being that specifically granted to the federal government by the Constitution; and

WHEREAS, The Ninth Amendment to the Constitution of the United States states that, "The enumeration in the Constitution, of certain rights, shall not be construed to deny or disparage others retained by the people"; and

WHEREAS, We believe in the importance of all levels of government working together to serve the citizens of our country, by respecting the constitutional provisions that properly delineate the authority of each respective level; and

WHEREAS, The Tenth Amendment assures that we, the people of the United States and each sovereign State in the Union of States, now have, and have always had, rights the federal government may not usurp; and

WHEREAS, The United States Supreme Court held in *New York v. United States*, 505 U.S. 144 (1992), that Congress may not simply commandeer the legislative and regulatory processes of the States by compelling them to enact and enforce regulatory programs; and

WHEREAS, The United States Supreme Court held in *United States v. Lopez*, 514 U.S. 549 (1995) that the scope of the federal government's power "must be considered in light of our dual system of government and may not be extended so as to ... effectively obliterate the distinction between what is national and what is local..." (514 U.S. at 557); and

WHEREAS, Certain enactments by the federal government exceed the scope of the federal government's enumerated powers, and intrude on areas traditionally left to the States; and

WHEREAS, Today, in 2018, the States are often treated as agents of the federal government, in contravention of the principles outlined above; and

WHEREAS, Certain federal laws contravene the Tenth Amendment to the Constitution of the United States; now therefore be it

RESOLVED, That the State of Ohio hereby acknowledges and reaffirms its residuary and inviolable sovereignty under the Tenth Amendment to the Constitution of the United States over all powers not otherwise enumerated and granted to the federal government by the Constitution of the United States; and be it further

RESOLVED, That this resolution serves as notice to the federal government to end federal mandates that are beyond the scope of its constitutionally delegated powers; and be it further

RESOLVED, That compulsory federal legislation that directs States to comply under threat of civil or criminal penalty or sanction or that requires States to enact legislation or lose federal funding be prohibited or repealed; and be it further

RESOLVED, That the Clerk of the Senate transmit duly authenticated copies of this resolution to the President of the United States, the President Pro Tempore of the United States Senate, the Speaker of the United States House of Representatives, the Speaker of the House of Representatives and the President of the Senate of each state's legislature, and each member of the Ohio Congressional delegation.

"Sec. 3302.01. As used in this chapter:

(A) "Performance index score" means the average of the totals derived from calculations, for each subject area, of the weighted proportion of untested students and students scoring at each level of skill described in division (A)(2) of section 3301.0710 of the Revised Code on the state achievement assessments, as follows:

(1) For the assessments prescribed by division (A)(1) of section 3301.0710 of the Revised Code, the average for each of the subject areas of English language arts, mathematics, and science.

(2) For the assessments prescribed by division (B)(1) of section 3301.0710 and division (B)(2) of section 3301.0712 of the Revised Code, the average for each of the subject areas of English language arts and mathematics.

The department of education shall assign weights such that students who do not take an assessment receive a weight of zero and students who

take an assessment receive progressively larger weights dependent upon the level of skill attained on the assessment. The department shall assign additional weights to students who have been permitted to pass over a subject in accordance with a student acceleration policy adopted under section 3324.10 of the Revised Code. If such a student attains the proficient score prescribed under division (A)(2)(c) of section 3301.0710 of the Revised Code or higher on an assessment, the department shall assign the student the weight prescribed for the next higher scoring level. If such a student attains the advanced score, prescribed under division (A)(2)(a) of section 3301.0710 of the Revised Code, on an assessment, the department shall assign to the student an additional proportional weight, as approved by the state board. For each school year that such a student's score is included in the performance index score and the student attains the proficient score on an assessment, that additional weight shall be assigned to the student on a subject-by-subject basis.

Students shall be included in the "performance index score" in accordance with division (K)(2) of section 3302.03 of the Revised Code.

(B) "Subgroup" means a subset of the entire student population of the state, a school district, or a school building and includes each of the following:

- (1) Major racial and ethnic groups;
- (2) Students with disabilities;
- (3) Economically disadvantaged students;
- (4) Limited English proficient students;

(5) Students identified as gifted in superior cognitive ability and specific academic ability fields under Chapter 3324. of the Revised Code. For students who are gifted in specific academic ability fields, the department shall use data for those students with specific academic ability in math and reading. If any other academic field is assessed, the department shall also include data for students with specific academic ability in that field.

(6) Students in the lowest quintile for achievement statewide, as determined by a method prescribed by the state board of education.

(C) "No Child Left Behind Act of 2001" includes the statutes codified at 20 U.S.C. 6301 et seq. and any amendments, waivers, or both thereto, rules and regulations promulgated pursuant to those statutes, guidance documents, and any other policy directives regarding implementation of that act issued by the United States department of education.

(D) "Adequate yearly progress" means a measure of annual academic performance as calculated in accordance with the "No Child Left Behind Act of 2001."

(E) "Supplemental educational services" means additional academic assistance, such as tutoring, remediation, or other educational enrichment activities, that is conducted outside of the regular school day by a provider approved by the department in accordance with the "No Child Left Behind Act of 2001."

(F) "Value-added progress dimension" means a measure of academic gain for a student or group of students over a specific period of time that is calculated by applying a statistical methodology to individual student achievement data derived from the achievement assessments prescribed by section 3301.0710 of the Revised Code. The "value-added progress dimension" shall be developed and implemented in accordance with section 3302.021 of the Revised Code.

(G)(1) "Four-year adjusted cohort graduation rate" means the number of students who graduate in four years or less with a regular high school diploma divided by the number of students who form the adjusted cohort for the graduating class.

(2) "Five-year adjusted cohort graduation rate" means the number of students who graduate in five years with a regular high school diploma divided by the number of students who form the adjusted cohort for the four-year graduation rate.

(H) "State institution of higher education" has the same meaning as in section 3345.011 of the Revised Code.

(I) "Annual measurable objectives" means a measure of student progress determined in accordance with an agreement between the department of education and the United States department of education.

(J) "Community school" means a community school established under Chapter 3314. of the Revised Code.

(K) "Internet- or computer-based community school" has the same meaning as in section 3314.02 of the Revised Code.

(L) "STEM school" means a science, technology, engineering, and mathematics school established under Chapter 3326. of the Revised Code.

~~(M)~~ "(M) "Entitled to attend school in the district" means entitled to attend school in a school district under section 3313.64 or 3313.65 of the Revised Code.

Sec. 3302.03. Annually, not later than the fifteenth day of September or the preceding Friday when that day falls on a Saturday or Sunday, the department of education shall assign a letter grade for overall academic performance and for each separate performance measure for each school district, and each school building in a district, in accordance with this section. The state board shall adopt rules pursuant to Chapter 119. of the Revised Code to establish performance criteria for each letter grade and prescribe a

method by which the department assigns each letter grade. For a school building to which any of the performance measures do not apply, due to grade levels served by the building, the state board shall designate the performance measures that are applicable to the building and that must be calculated separately and used to calculate the building's overall grade. The department shall issue annual report cards reflecting the performance of each school district, each building within each district, and for the state as a whole using the performance measures and letter grade system described in this section. The department shall include on the report card for each district and each building within each district the most recent two-year trend data in student achievement for each subject and each grade.

(A)(1) For the 2012-2013 school year, the department shall issue grades as described in division (E) of this section for each of the following performance measures:

(a) Annual measurable objectives;

(b) Performance index score for a school district or building. Grades shall be awarded as a percentage of the total possible points on the performance index system as adopted by the state board. In adopting benchmarks for assigning letter grades under division (A)(1)(b) of this section, the state board of education shall designate ninety per cent or higher for an "A," at least seventy per cent but not more than eighty per cent for a "C," and less than fifty per cent for an "F."

(c) The extent to which the school district or building meets each of the applicable performance indicators established by the state board under section 3302.02 of the Revised Code and the percentage of applicable performance indicators that have been achieved. In adopting benchmarks for assigning letter grades under division (A)(1)(c) of this section, the state board shall designate ninety per cent or higher for an "A."

(d) The four- and five-year adjusted cohort graduation rates.

In adopting benchmarks for assigning letter grades under division (A)(1)(d), (B)(1)(d), or (C)(1)(d) of this section, the department shall designate a four-year adjusted cohort graduation rate of ninety-three per cent or higher for an "A" and a five-year cohort graduation rate of ninety-five per cent or higher for an "A."

(e) The overall score under the value-added progress dimension of a school district or building, for which the department shall use up to three years of value-added data as available. The letter grade assigned for this growth measure shall be as follows:

(i) A score that is at least two standard errors of measure above the mean score shall be designated as an "A."

(ii) A score that is at least one standard error of measure but less than

two standard errors of measure above the mean score shall be designated as a "B."

(iii) A score that is less than one standard error of measure above the mean score but greater than or equal to one standard error of measure below the mean score shall be designated as a "C."

(iv) A score that is not greater than one standard error of measure below the mean score but is greater than or equal to two standard errors of measure below the mean score shall be designated as a "D."

(v) A score that is not greater than two standard errors of measure below the mean score shall be designated as an "F."

Whenever the value-added progress dimension is used as a graded performance measure, whether as an overall measure or as a measure of separate subgroups, the grades for the measure shall be calculated in the same manner as prescribed in division (A)(1)(e) of this section.

(f) The value-added progress dimension score for a school district or building disaggregated for each of the following subgroups: students identified as gifted, students with disabilities, and students whose performance places them in the lowest quintile for achievement on a statewide basis. Each subgroup shall be a separate graded measure.

(2) Not later than April 30, 2013, the state board of education shall adopt a resolution describing the performance measures, benchmarks, and grading system for the 2012-2013 school year and, not later than June 30, 2013, shall adopt rules in accordance with Chapter 119. of the Revised Code that prescribe the methods by which the performance measures under division (A)(1) of this section shall be assessed and assigned a letter grade, including performance benchmarks for each letter grade.

At least forty-five days prior to the state board's adoption of rules to prescribe the methods by which the performance measures under division (A) (1) of this section shall be assessed and assigned a letter grade, the department shall conduct a public presentation before the standing committees of the house of representatives and the senate that consider education legislation describing such methods, including performance benchmarks.

(3) There shall not be an overall letter grade for a school district or building for the 2012-2013 school year.

(B)(1) For the 2013-2014 ~~and 2014-2015 through 2016-2017~~ school years, the department shall issue grades as described in division (E) of this section for each of the following performance measures:

(a) Annual measurable objectives;

(b) Performance index score for a school district or building. Grades

shall be awarded as a percentage of the total possible points on the performance index system as created by the department. In adopting benchmarks for assigning letter grades under division (B)(1)(b) of this section, the state board shall designate ninety per cent or higher for an "A," at least seventy per cent but not more than eighty per cent for a "C," and less than fifty per cent for an "F."

(c) The extent to which the school district or building meets each of the applicable performance indicators established by the state board under section 3302.03 of the Revised Code and the percentage of applicable performance indicators that have been achieved. In adopting benchmarks for assigning letter grades under division (B)(1)(c) of this section, the state board shall designate ninety per cent or higher for an "A."

(d) The four- and five-year adjusted cohort graduation rates;

(e) The overall score under the value-added progress dimension of a school district or building, for which the department shall use up to three years of value-added data as available.

(f) The value-added progress dimension score for a school district or building disaggregated for each of the following subgroups: students identified as gifted in superior cognitive ability and specific academic ability fields under Chapter 3324. of the Revised Code, students with disabilities, and students whose performance places them in the lowest quintile for achievement on a statewide basis. Each subgroup shall be a separate graded measure.

(g) Whether a school district or building is making progress in improving literacy in grades kindergarten through three, as determined using a method prescribed by the state board. The state board shall adopt rules to prescribe benchmarks and standards for assigning grades to districts and buildings for purposes of division (B)(1)(g) of this section. In adopting benchmarks for assigning letter grades under divisions (B)(1)(g) and (C)(1)(g) of this section, the state board shall determine progress made based on the reduction in the total percentage of students scoring below grade level, or below proficient, compared from year to year on the reading and writing diagnostic assessments administered under section 3301.0715 of the Revised Code and the third grade English language arts assessment under section 3301.0710 of the Revised Code, as applicable. The state board shall designate for a "C" grade a value that is not lower than the statewide average value for this measure. No grade shall be issued under divisions (B)(1)(g) and (C)(1)(g) of this section for a district or building in which less than five per cent of students have scored below grade level on the diagnostic assessment administered to students in kindergarten under division (B)(1) of section 3313.608 of the Revised Code.

(h) For a high mobility school district or building, an additional

value-added progress dimension score. For this measure, the department shall use value-added data from the most recent school year available and shall use assessment scores for only those students to whom the district or building has administered the assessments prescribed by section 3301.0710 of the Revised Code for each of the two most recent consecutive school years.

As used in this division, "high mobility school district or building" means a school district or building where at least twenty-five per cent of its total enrollment is made up of students who have attended that school district or building for less than one year.

(2) In addition to the graded measures in division (B)(1) of this section, the department shall include on a school district's or building's report card all of the following without an assigned letter grade:

(a) The percentage of students enrolled in a district or building participating in advanced placement classes and the percentage of those students who received a score of three or better on advanced placement examinations;

(b) The number of a district's or building's students who have earned at least three college credits through dual enrollment or advanced standing programs, such as the post-secondary enrollment options program under Chapter 3365. of the Revised Code and state-approved career-technical courses offered through dual enrollment or statewide articulation, that appear on a student's transcript or other official document, either of which is issued by the institution of higher education from which the student earned the college credit. The credits earned that are reported under divisions (B)(2)(b) and (C)(2)(c) of this section shall not include any that are remedial or developmental and shall include those that count toward the curriculum requirements established for completion of a degree.

(c) The percentage of students enrolled in a district or building who have taken a national standardized test used for college admission determinations and the percentage of those students who are determined to be remediation-free in accordance with standards adopted under division (F) of section 3345.061 of the Revised Code;

(d) The percentage of the district's or the building's students who receive industry-recognized credentials as approved under section 3313.6113 of the Revised Code.

(e) The percentage of students enrolled in a district or building who are participating in an international baccalaureate program and the percentage of those students who receive a score of four or better on the international baccalaureate examinations.

(f) The percentage of the district's or building's students who receive an honors diploma under division (B) of section 3313.61 of the Revised

Code.

(3) Not later than December 31, 2013, the state board shall adopt rules in accordance with Chapter 119. of the Revised Code that prescribe the methods by which the performance measures under divisions (B)(1)(f) and (B)(1)(g) of this section will be assessed and assigned a letter grade, including performance benchmarks for each grade.

At least forty-five days prior to the state board's adoption of rules to prescribe the methods by which the performance measures under division (B) (1) of this section shall be assessed and assigned a letter grade, the department shall conduct a public presentation before the standing committees of the house of representatives and the senate that consider education legislation describing such methods, including performance benchmarks.

(4) There shall not be an overall letter grade for a school district or building for the 2013-2014, 2014-2015, 2015-2016, and 2016-2017 school years.

(C)(1) For the ~~2014-2015-2017-2018~~ school year and each school year thereafter, the department shall issue grades as described in division (E) of this section for each of the performance measures prescribed in division (C)(1) of this section. The graded measures are as follows:

(a) Annual measurable objectives;

(b) Performance index score for a school district or building. Grades shall be awarded as a percentage of the total possible points on the performance index system as created by the department. In adopting benchmarks for assigning letter grades under division (C)(1)(b) of this section, the state board shall designate ninety per cent or higher for an "A," at least seventy per cent but not more than eighty per cent for a "C," and less than fifty per cent for an "F."

(c) The extent to which the school district or building meets each of the applicable performance indicators established by the state board under section 3302.03 of the Revised Code and the percentage of applicable performance indicators that have been achieved. In adopting benchmarks for assigning letter grades under division (C)(1)(c) of this section, the state board shall designate ninety per cent or higher for an "A."

(d) The four- and five-year adjusted cohort graduation rates;

(e) The overall score under the value-added progress dimension, or another measure of student academic progress if adopted by the state board, of a school district or building, for which the department shall use up to three years of value-added data as available.

In adopting benchmarks for assigning letter grades for overall score on value-added progress dimension under division (C)(1)(e) of this section,

the state board shall prohibit the assigning of a grade of "A" for that measure unless the district's or building's grade assigned for value-added progress dimension for all subgroups under division (C)(1)(f) of this section is a "B" or higher.

For the metric prescribed by division (C)(1)(e) of this section, the state board may adopt a student academic progress measure to be used instead of the value-added progress dimension. If the state board adopts such a measure, it also shall prescribe a method for assigning letter grades for the new measure that is comparable to the method prescribed in division (A)(1)(e) of this section.

(f) The value-added progress dimension score of a school district or building disaggregated for each of the following subgroups: students identified as gifted in superior cognitive ability and specific academic ability fields under Chapter 3324. of the Revised Code, students with disabilities, and students whose performance places them in the lowest quintile for achievement on a statewide basis, as determined by a method prescribed by the state board. Each subgroup shall be a separate graded measure.

The state board may adopt student academic progress measures to be used instead of the value-added progress dimension. If the state board adopts such measures, it also shall prescribe a method for assigning letter grades for the new measures that is comparable to the method prescribed in division (A)(1)(e) of this section.

(g) Whether a school district or building is making progress in improving literacy in grades kindergarten through three, as determined using a method prescribed by the state board. The state board shall adopt rules to prescribe benchmarks and standards for assigning grades to a district or building for purposes of division (C)(1)(g) of this section. The state board shall designate for a "C" grade a value that is not lower than the statewide average value for this measure. No grade shall be issued under division (C)(1)(g) of this section for a district or building in which less than five per cent of students have scored below grade level on the kindergarten diagnostic assessment under division (B)(1) of section 3313.608 of the Revised Code.

(h) For a high mobility school district or building, an additional value-added progress dimension score. For this measure, the department shall use value-added data from the most recent school year available and shall use assessment scores for only those students to whom the district or building has administered the assessments prescribed by section 3301.0710 of the Revised Code for each of the two most recent consecutive school years.

As used in this division, "high mobility school district or building" means a school district or building where at least twenty-five per cent of its total enrollment is made up of students who have attended that school district or building for less than one year.

(2) In addition to the graded measures in division (C)(1) of this section, the department shall include on a school district's or building's report card all of the following without an assigned letter grade:

(a) The percentage of students enrolled in a district or building who have taken a national standardized test used for college admission determinations and the percentage of those students who are determined to be remediation-free in accordance with the standards adopted under division (F) of section 3345.061 of the Revised Code;

(b) The percentage of students enrolled in a district or building participating in advanced placement classes and the percentage of those students who received a score of three or better on advanced placement examinations;

(c) The percentage of a district's or building's students who have earned at least three college credits through advanced standing programs, such as the college credit plus program under Chapter 3365. of the Revised Code and state-approved career-technical courses offered through dual enrollment or statewide articulation, that appear on a student's college transcript issued by the institution of higher education from which the student earned the college credit. The credits earned that are reported under divisions (B)(2)(b) and (C)(2)(c) of this section shall not include any that are remedial or developmental and shall include those that count toward the curriculum requirements established for completion of a degree.

(d) The percentage of the district's or building's students who receive an honor's diploma under division (B) of section 3313.61 of the Revised Code;

(e) The percentage of the district's or building's students who receive industry-recognized credentials as approved under section 3313.6113 of the Revised Code;

(f) The percentage of students enrolled in a district or building who are participating in an international baccalaureate program and the percentage of those students who receive a score of four or better on the international baccalaureate examinations;

(g) The results of the college and career-ready assessments administered under division (B)(1) of section 3301.0712 of the Revised Code.

(3) The state board shall adopt rules pursuant to Chapter 119. of the Revised Code that establish a method to assign an overall grade for a school district or school building for the 2017-2018 school year and each school year thereafter. The rules shall group the performance measures in divisions (C)(1) and (2) of this section into the following components:

(a) Gap closing, which shall include the performance measure in

division (C)(1)(a) of this section;

(b) Achievement, which shall include the performance measures in divisions (C)(1)(b) and (c) of this section;

(c) Progress, which shall include the performance measures in divisions (C)(1)(e) and (f) of this section;

(d) Graduation, which shall include the performance measure in division (C)(1)(d) of this section;

(e) Kindergarten through third-grade literacy, which shall include the performance measure in division (C)(1)(g) of this section;

(f) Prepared for success, which shall include the performance measures in divisions (C)(2)(a), (b), (c), (d), (e), and (f) of this section. The state board shall develop a method to determine a grade for the component in division (C)(3)(f) of this section using the performance measures in divisions (C)(2)(a), (b), (c), (d), (e), and (f) of this section. When available, the state board may incorporate the performance measure under division (C)(2)(g) of this section into the component under division (C)(3)(f) of this section. When determining the overall grade for the prepared for success component prescribed by division (C)(3)(f) of this section, no individual student shall be counted in more than one performance measure. However, if a student qualifies for more than one performance measure in the component, the state board may, in its method to determine a grade for the component, specify an additional weight for such a student that is not greater than or equal to 1.0. In determining the overall score under division (C)(3)(f) of this section, the state board shall ensure that the pool of students included in the performance measures aggregated under that division are all of the students included in the four- and five-year adjusted graduation cohort.

In the rules adopted under division (C)(3) of this section, the state board shall adopt a method for determining a grade for each component in divisions (C)(3)(a) to (f) of this section. The state board also shall establish a method to assign an overall grade of "A," "B," "C," "D," or "F" using the grades assigned for each component. The method the state board adopts for assigning an overall grade shall give equal weight to the components in divisions (C)(3)(b) and (c) of this section.

At least forty-five days prior to the state board's adoption of rules to prescribe the methods for calculating the overall grade for the report card, as required by this division, the department shall conduct a public presentation before the standing committees of the house of representatives and the senate that consider education legislation describing the format for the report card, weights that will be assigned to the components of the overall grade, and the method for calculating the overall grade.

(D) On or after July 1, 2015, the state board may develop a measure

of student academic progress for high school students using only data from assessments in English language arts and mathematics. If the state board develops this measure, each school district and applicable school building shall be assigned a separate letter grade for it not sooner than the 2017-2018 school year. The district's or building's grade for that measure shall not be included in determining the district's or building's overall letter grade.

(E) The letter grades assigned to a school district or building under this section shall be as follows:

- (1) "A" for a district or school making excellent progress;
- (2) "B" for a district or school making above average progress;
- (3) "C" for a district or school making average progress;
- (4) "D" for a district or school making below average progress;
- (5) "F" for a district or school failing to meet minimum progress.

(F) When reporting data on student achievement and progress, the department shall disaggregate that data according to the following categories:

- (1) Performance of students by grade-level;
- (2) Performance of students by race and ethnic group;
- (3) Performance of students by gender;
- (4) Performance of students grouped by those who have been enrolled in a district or school for three or more years;
- (5) Performance of students grouped by those who have been enrolled in a district or school for more than one year and less than three years;
- (6) Performance of students grouped by those who have been enrolled in a district or school for one year or less;
- (7) Performance of students grouped by those who are economically disadvantaged;
- (8) Performance of students grouped by those who are enrolled in a conversion community school established under Chapter 3314. of the Revised Code;
- (9) Performance of students grouped by those who are classified as limited English proficient;
- (10) Performance of students grouped by those who have disabilities;
- (11) Performance of students grouped by those who are classified as migrants;
- (12) Performance of students grouped by those who are identified as gifted in superior cognitive ability and the specific academic ability fields of reading and math pursuant to Chapter 3324. of the Revised Code. In

disaggregating specific academic ability fields for gifted students, the department shall use data for those students with specific academic ability in math and reading. If any other academic field is assessed, the department shall also include data for students with specific academic ability in that field as well.

(13) Performance of students grouped by those who perform in the lowest quintile for achievement on a statewide basis, as determined by a method prescribed by the state board.

The department may disaggregate data on student performance according to other categories that the department determines are appropriate. To the extent possible, the department shall disaggregate data on student performance according to any combinations of two or more of the categories listed in divisions (F)(1) to (13) of this section that it deems relevant.

In reporting data pursuant to division (F) of this section, the department shall not include in the report cards any data statistical in nature that is statistically unreliable or that could result in the identification of individual students. For this purpose, the department shall not report student performance data for any group identified in division (F) of this section that contains less than ten students. If the department does not report student performance data for a group because it contains less than ten students, the department shall indicate on the report card that is why data was not reported.

(G) The department may include with the report cards any additional education and fiscal performance data it deems valuable.

(H) The department shall include on each report card a list of additional information collected by the department that is available regarding the district or building for which the report card is issued. ~~When available, such~~ Such additional information shall include student mobility data disaggregated by race and socioeconomic status; for each district and school including each internet- and computer-based community school not sponsored by a school district. When available, such additional information also shall include college enrollment data, and the reports prepared under section 3302.031 of the Revised Code.

The department shall maintain a site on the world wide web. The report card shall include the address of the site and shall specify that such additional information is available to the public at that site. The department shall also provide a copy of each item on the list to the superintendent of each school district. (D) Not later than ninety days after the effective date of this amendment, the department shall develop a metric for measuring student performance in schools that operate using the blended learning model."

(E) A community school may not levy taxes or issue bonds secured by tax revenues.

(F) No community school shall charge tuition for the enrollment of any student who is a resident of this state. A community school may charge tuition for the enrollment of any student who is not a resident of this state.

(G)(1)(a) A community school may borrow money to pay any necessary and actual expenses of the school in anticipation of the receipt of any portion of the payments to be received by the school pursuant to division (C) of this section. The school may issue notes to evidence such borrowing. The proceeds of the notes shall be used only for the purposes for which the anticipated receipts may be lawfully expended by the school.

(b) A school may also borrow money for a term not to exceed fifteen years for the purpose of acquiring facilities.

(2) Except for any amount guaranteed under section 3318.50 of the Revised Code, the state is not liable for debt incurred by the governing authority of a community school.

(H) The department of education shall adjust the amounts subtracted

and paid under division (C) of this section to reflect any enrollment of students in community schools for less than the equivalent of a full school year. The state board of education within ninety days after April 8, 2003, shall adopt in accordance with Chapter 119. of the Revised Code rules governing the payments to community schools under this section including initial payments in a school year and adjustments and reductions made in subsequent periodic payments to community schools and corresponding deductions from school district accounts as provided under division (C) of this section. For purposes of this section:

(1) A student shall be considered enrolled in the community school for any portion of the school year the student is participating at a college under Chapter 3365. of the Revised Code.

(2) A student shall be considered to be enrolled in a community school for the period of time beginning on the later of the date on which the school both has received documentation of the student's enrollment from a parent and the student has commenced participation in learning opportunities as defined in the contract with the sponsor, or thirty days prior to the date on which the student is entered into the education management information system established under section 3301.0714 of the Revised Code. For purposes of applying this division and divisions (H)(3) and (4) of this section to a community school student, "learning opportunities" shall be defined in the contract, which shall describe both classroom-based and non-classroom-based learning opportunities and shall be in compliance with criteria and documentation requirements for student participation which shall be established by the department. Any student's instruction time in non-classroom-based learning opportunities shall be certified by an employee of the community school. A student's enrollment shall be considered to cease on the date on which any of the following occur:

(a) The community school receives documentation from a parent terminating enrollment of the student.

(b) The community school is provided documentation of a student's enrollment in another public or private school.

(c) The community school ceases to offer learning opportunities to the student pursuant to the terms of the contract with the sponsor or the operation of any provision of this chapter.

Except as otherwise specified in this paragraph, beginning in the 2011-2012 school year, any student who completed the prior school year in an internet- or computer-based community school shall be considered to be enrolled in the same school in the subsequent school year until the student's enrollment has ceased as specified in division (H)(2) of this section. The department shall continue subtracting and paying amounts for the student under division (C) of this section without interruption at the start of the

subsequent school year. However, unless section 3314.088 of the Revised Code applies to the student, if the student without a legitimate excuse fails to participate in the first one hundred five consecutive hours of learning opportunities offered to the student in that subsequent school year, the student shall be considered not to have re-enrolled in the school for that school year and the department shall recalculate the payments to the school for that school year to account for the fact that the student is not enrolled.

(3) The department shall determine each community school student's percentage of full-time equivalency based on the percentage of learning opportunities offered by the community school to that student, reported either as number of hours or number of days, is of the total learning opportunities offered by the community school to a student who attends for the school's entire school year. However, no internet- or computer-based community school shall be credited for any time a student spends participating in learning opportunities beyond ten hours within any period of twenty-four consecutive hours. Whether it reports hours or days of learning opportunities, each community school shall offer not less than nine hundred twenty hours of learning opportunities during the school year.

In the case of an internet- or computer-based community school that is not sponsored by a school district, when determining a student's percentage of full-time equivalency under division (H)(3) of this section, the "percentage of learning opportunities provided by the community school to that student" shall be equal to the amount of time that the student was actively engaged in learning opportunities during that school year, unless section 3314.088 of the Revised Code applies to the student.

(4) With respect to the calculation of full-time equivalency under division (H)(3) of this section, the department shall waive the number of hours or days of learning opportunities not offered to a student because the community school was closed during the school year due to disease epidemic, hazardous weather conditions, law enforcement emergencies, inoperability of school buses or other equipment necessary to the school's operation, damage to a school building, or other temporary circumstances due to utility failure rendering the school building unfit for school use, so long as the school was actually open for instruction with students in attendance during that school year for not less than the minimum number of hours required by this chapter. The department shall treat the school as if it were open for instruction with students in attendance during the hours or days waived under this division.

(I) The department of education shall reduce the amounts paid under this section to reflect payments made to colleges under section 3365.07 of the Revised Code.

(J)(1) No student shall be considered enrolled in any internet- or

computer-based community school or, if applicable to the student, in any community school that is required to provide the student with a computer pursuant to division (C) of section 3314.22 of the Revised Code, unless both of the following conditions are satisfied:

(a) The student possesses or has been provided with all required hardware and software materials and all such materials are operational so that the student is capable of fully participating in the learning opportunities specified in the contract between the school and the school's sponsor as required by division (A)(23) of section 3314.03 of the Revised Code;

(b) The school is in compliance with division (A) of section 3314.22 of the Revised Code, relative to such student.

(2) In accordance with policies adopted jointly by the superintendent of public instruction and, in consultation with the auditor of state, the department shall reduce the amounts otherwise payable under division (C) of this section to any community school that includes in its program the provision of computer hardware and software materials to any student, if such hardware and software materials have not been delivered, installed, and activated for each such student in a timely manner or other educational materials or services have not been provided according to the contract between the individual community school and its sponsor.

The superintendent of public instruction and the auditor of state shall jointly establish a method for auditing any community school to which this division pertains to ensure compliance with this section.

The superintendent, auditor of state, and the governor shall jointly make recommendations to the general assembly for legislative changes that may be required to assure fiscal and academic accountability for such schools.

(K)(1) If the department determines that a review of a community school's enrollment is necessary, such review shall be completed and written notice of the findings shall be provided to the governing authority of the community school and its sponsor within ninety days of the end of the community school's fiscal year, unless extended for a period not to exceed thirty additional days for one of the following reasons:

(a) The department and the community school mutually agree to the extension.

(b) Delays in data submission caused by either a community school or its sponsor.

(2) If the review results in a finding that additional funding is owed to the school, such payment shall be made within thirty days of the written notice. If the review results in a finding that the community school owes moneys to the state, the following procedure shall apply:

(a) Within ten business days of the receipt of the notice of findings, the community school may appeal the department's determination to the state board of education or its designee.

(b) The board or its designee shall conduct an informal hearing on the matter within thirty days of receipt of such an appeal and shall issue a decision within fifteen days of the conclusion of the hearing.

(c) If the board has enlisted a designee to conduct the hearing, the designee shall certify its decision to the board. The board may accept the decision of the designee or may reject the decision of the designee and issue its own decision on the matter.

(d) Any decision made by the board under this division is final.

(3) If it is decided that the community school owes moneys to the state, the department shall deduct such amount from the school's future payments in accordance with guidelines issued by the superintendent of public instruction.

(L) The department shall not subtract from a school district's state aid account and shall not pay to a community school under division (C) of this section any amount for any of the following:

(1) Any student who has graduated from the twelfth grade of a public or nonpublic high school;

(2) Any student who is not a resident of the state;

(3) Any student who was enrolled in the community school during the previous school year when assessments were administered under section 3301.0711 of the Revised Code but did not take one or more of the assessments required by that section and was not excused pursuant to division (C)(1) or (3) of that section, unless the superintendent of public instruction grants the student a waiver from the requirement to take the assessment and a parent is not paying tuition for the student pursuant to section 3314.26 of the Revised Code. The superintendent may grant a waiver only for good cause in accordance with rules adopted by the state board of education.

(4) Any student who has attained the age of twenty-two years, except for veterans of the armed services whose attendance was interrupted before completing the recognized twelve-year course of the public schools by reason of induction or enlistment in the armed forces and who apply for enrollment in a community school not later than four years after termination of war or their honorable discharge. If, however, any such veteran elects to enroll in special courses organized for veterans for whom tuition is paid under federal law, or otherwise, the department shall not subtract from a school district's state aid account and shall not pay to a community school under division (C) of this section any amount for that veteran.

Sec. 3314.088. In extenuating circumstances, as specified in rules adopted by the state board of education pursuant to this section, a high-performing student enrolled in an internet- or computer-based community school not sponsored by a school district shall not be subject to the withdrawal requirement, for being absent without legitimate excuse for one hundred five hours of learning opportunities, prescribed by division (A)(6) of section 3314.03 and division (H)(2) of section 3314.08 of the Revised Code. Additionally, for purposes of determining that student's percentage of full-time equivalency under division (H) (3) of section 3314.08 of the Revised Code, the "percentage of learning opportunities provided by the community school to that student" shall not be required to equal the amount of time that the student was actively engaging in learning opportunities during that school year.

Not later than ninety days after the effective date of this section, the state board shall adopt rules, in accordance with Chapter 119. of the Revised Code, for purposes of implementing this section. The rules shall include a definition of "high-performing student" and specify both the extenuating circumstances under which a student may qualify under this section and any necessary parameters for determining a high-performing student's percentage of full-time equivalency.

Sec. 3314.23. (A) Subject to division (B) of this section, each internet- or computer-based community school shall comply with the standards developed by the international association for K-12 online learning.

(B) Each internet- or computer-based community school that initially opens for operation on or after January 1, 2013, shall comply with the standards required by division (A) of this section at the time it opens. Each internet- or computer-based community school that initially opened for operation prior to January 1, 2013, shall comply with the standards required by division (A) of this section not later than July 1, 2013.

(C) The sponsor of each internet- or computer-based community school shall be responsible for monitoring, ensuring, and reporting compliance with the online learning standards described in divisions (A) and (B) of this section and shall report a school's failure to comply with these standards to the department of education in the manner prescribed by the department.

Sec. 3314.241. All public meetings of the governing authority of an internet- or computer-based community school not sponsored by a school district shall be made available online to the public in a format that is viewable as a live event through the internet. Notice of each meeting shall be given at least two weeks prior to the meeting by publication in at least one newspaper of general circulation within each city or county from which the school currently enrolls a student.

Nothing in this section shall be construed to exempt an internet- or computer-based community school from complying with the provisions of the open meetings laws, as prescribed by division (A)(11)(d) of section 3314.03 of the Revised Code.

Sec. 3314.242. Any internet- or computer-based community school not sponsored by a school district shall include in any advertising, recruiting, or promotional materials the most recent rating or letter grade for overall academic performance, performance index score, overall value-added progress dimension score, and the four- and five-year adjusted cohort graduation rate scores assigned to the school by the department of education under divisions (B)(1)(b), (d), and (e); (C)(1)(b), (d), and (e); and (C)(3) of section 3302.03 of the Revised Code.

Sec. 3314.27. (A) No student enrolled in an internet- or computer-based community school may participate in more than ten hours of learning opportunities in any period of twenty-four consecutive hours. Any time such a student participates in learning opportunities beyond the limit prescribed in this section shall not count toward the annual minimum number of hours required to be provided to that student as prescribed in division (A)(11)(a) of section 3314.03 of the Revised Code. If any internet- or computer-based community school requires its students to participate in learning opportunities on the basis of days rather than hours, one day shall consist of a minimum of five hours of such participation.

(B) Each internet- or computer-based community school shall keep an accurate record of each individual student's participation in learning opportunities each day. The record shall be kept in such a manner that the information contained within it easily can be submitted to the department of education, upon request by the department or the auditor of state.

(C) Each internet- or computer-based community school that is not sponsored by a school district shall keep an accurate record of the number of hours in which each student is actively participating in learning opportunities during each period of twenty-four consecutive hours. The record shall be certified on a monthly basis by an individual who is employed by the school and holds a valid license issued by the state board of education pursuant to sections 3319.22 to 3319.31 of the Revised Code. The record shall then be submitted each month as a report to the department of education, in the form and manner prescribed by the department. Upon receipt, the department shall make each report available on its web site, to the extent permitted under section 3319.321 of the Revised Code and the "Family Educational Rights and Privacy Act of 1974," 88 Stat. 571, 20 U.S.C. 1232g, as amended.

(D) If a student enrolled in an internet- or computer- based community school not sponsored by a school district fails to participate in learning opportunities for ten consecutive days following the date the student

begins instruction for the school year but prior to completing the student's academic program for that school year, the school shall notify the department, the student's parent, guardian, or custodian, and the student's resident school district of the student's failure to participate in those learning opportunities.

(E) As used in this section, a student's "resident school district" is the school district in which the student is entitled to attend school under section 3313.64 or 3313.65 of the Revised Code and from which district the payments to the community school for the student are deducted under section 3314.08 of the Revised Code.

Sec. 3314.271. (A) Each internet- or computer-based community school shall offer a student orientation course and shall notify each student who enrolls in that school of that student's opportunity to participate in the student orientation course.

(B) The department of education shall provide guidance to internet- or computer-based community schools for developing and delivering the orientation course.

(C) Each internet- or computer-based community school may, at the time of a particular student's enrollment in that school, ask the student's parent or guardian to estimate the length of time the student will attend the school. Any information collected pursuant to this division shall be included in an aggregated format in the school's annual report required by division (A) (11)(g) of section 3314.03 of the Revised Code.
