Unassigned territory

Any county or part of a county that has not been assigned to one of the districts described in the bill is included (1) within the district that contains the least population according to the 2010 decennial census and (2) that is contiguous to that county or part of that county.²

Definitions and incorporation by reference

As used in the bill, "county," "census tract," "census block group," and "census block" have the same meanings and describe the same geographical boundaries as used by the United States Department of Commerce, Bureau of the Census in reporting the 2010 decennial census of Ohio. The bill incorporates by reference into the Revised Code the official report of that census and all official documents relating to that report.³

COMMENT

Due to technological limitations, the Legislative Service Commission is not able to independently verify district population counts, total plan deviation, and whether there is any unassigned population.
