

Ohio Legislative Service Commission

Synopsis of Senate Amendments

Jennifer Stump

Am. H.B. 375

129th General Assembly
(S. Education)

No changes made by committee.

The amendment adopted on the Senate floor exempts a school district that has more than 30,000 students and was rated "effective" for the 2009-2010 and 2010-2011 school years from the requirements of current law governing the sale of district-owned real property, if the property is within six-tenths of a mile from a casino. Specifies that the property may be sold to any party "in support of economic development" within the district.
