

SENECA COUNTY CHAPTER NO. 293 PHEASANTS FOREVER

The Seneca County Chapter unanimously supports the Division's non-resident license proposal for a number of reasons, including the impact on our share of Federal funding. I have first hand knowledge of an adjoining state raising it's non-resident fees last year, I believe for the same reason, with no objection from me. If they continue to provide a quality resource, I will continue to purchase their license. In relation to other costs, a hunting license is still a bargain and that quality resource doesn't just happen, it has management costs associated with it. So if we wish to perpetuate that resource for subsequent generations we have to accept those costs.

Thank you for your consideration,

Mario Livojevic
Chapter President
