Proponent Testimony HB392- Immunity in Certain Torts for Beekeepers

On behalf of the Greater Cleveland Beekeepers Association I would like to support the pending legislation of House Bill 392.

As urban beekeepers we have a lot to worry about without the hassle of being sued for something that is natural for the honeybee foraging for nectar and pollen. As you may or may not know, a honeybee only stings as a last resort. We need the honeybee to help feed us humans.

Thank you for hearing a bill that will help protect the beekeepers of Ohio from frivolous lawsuits. If I myself or the Greater Cleveland Beekeepers Association can be of further help, please free to contact us.

Thank you,

Larry Theurer, Jr., President

Greater Cleveland Beekeepers Association
