

To whom it may concern,

In my capacity of Executive Director of the Ohio Student Government Association and President Elect of Wright State University's Student Government Association, I express full support in the replacement of the hardcopy provision with an interactive educational training for all incoming students at an institution. I fully believe that this will be a more effective way for our students to learn and ultimately curb sexual based violence across Ohio's institutions of higher learning. I greatly appreciate the efforts of Representative Barnes and the Inter-University Council for reaching a mutually agreeable resolution to this excellent piece of legislation that will directly benefit our students.

With highest regards,
