Why we need Medicare for ALL

As submitted by a Registered Nurse with 45 years experience
Linda Cannon, RN, BSN
5909 Ballymead Blvd
Dublin, OH 43016
with experience in oncology, emergency, intensive care, home care,
hospice and palliative care and pain management

1. Health care is a human right
2. Healthy people are in the best interest of all society
3. Preventive care will save dollars and increase everyone's quality of life
4. No one should be sick and also have to deal with bankruptcy to pay exorbitant health care costs
5. No one should have to choose whether to seek health care or feed their family
6. People will have the opportunity to address minor health problems early in the disease trajectory before they are catastrophic and they need Emergency and Intensive care and dialysis and heart transplants
7. Basic health care is a human right for EVERY SINGLE ONE
8. All civilized countries offer health care to their people
9. IT IS THE RIGHT THING TO DO!
10. Studies show it will save money- IF you structure this so greedy insurance and pharmaceutical companies do not co-opt the benefits
11. If you have health care, why do you think others don't deserve that same right?   THANK YOU!
