To Whom It May Concern:

Please accept this letter as my written testimony in support of HB440 which would provide universal health care coverage to Ohioans.

Over the last ten years, I have established an excellent relationship with my primary care doctor, and she is aware of my pre-existing conditions and medical history. Last year, my company's health insurance provider (United Healthcare) dropped all Premier Health providers – including my doctor. After a frustratingly long period of time, they eventually reinstated Premier, so now my doctor is in-network again. I want the right to choose my own doctor. I want the right to choose ANY doctor I think is right for my care. Our current system does not provide that right to the consumer. Therefore I urge you to support universal healthcare for Ohio.

Sincerely,

Tana Stanton
