Oral statement

My name is Rick Allred and I'm 57 years old. I am a target shooter and a hunter who has a CCW/CHL.

I am a honest law abiding citizen who strongly opposes HB 585. This bill only hurts us and does nothing to stop or deter crime.

The failure of law enforcement and parents to see the danger signs of bad people or mentally ill people who turn into mass shooters needs to be addressed. It is wrong to penalize the honest law abiding citizens who train constantly to protect themselves and their families from criminals.

Any law, like HB 585 will hurt us honest people and not the criminal aspect. HB 585 does not show how you will get the guns from criminals
