Special Requests: Vaccines are given to healthy individuals and thus should carry zero risk to the recipient, but this is not the case. The US Supreme Court recognizes vaccines to be “unavoidably unsafe” and to cause injury and death in some recipients. The US Government has paid out more than \$3.6 billion to the victims of vaccine injury. Hundreds of thousands have reported an adverse reaction to vaccination to VAERS. To require a doctor to sign an exemption takes away the parent's rights!! In California, a doctor who gave medical exemptions has had his license revoked. Don't take away our freedom to control what is injected into our own and our children's bodies!
