Owner & President of HOME CARE ASSISTANCE | Premier Provider of In-Home Senior Care | Live-In Care Specialists
Columbus, Ohio Area

Summary

As the premier provider of in-home care for seniors, my company has a lofty mission: to change the way the world ages. We're proud to be the only home health care solution that emphasizes active caregiving and improved lives — as well as the only company that specializes in live-in care, allowing older adults to remain forever at home no matter their limitations. (Think of us as assisted living at home.)

As a lifelong Ohio resident, I dedicated 25 years to the communication field before switching careers to realize my long-time goal of serving older adults. With the support of my husband, Mark Wengerd, I founded Home Care Assistance in 2009.

In the years since opening Home Care Assistance, we have grown exponentially every month to become the leading home care provider in central Ohio. In addition to establishing strong business processes and upholding high standards on the service side, I have focused on providing superior care that emphasizes quality over quantity. My company's dedication to providing the best care in the business has allowed us to develop a loyal base of clients who help the business grow through their heart-felt referrals to friends and family.

It can be hard for any of us to accept difficult truths, especially when it comes to our own abilities. As we age, many of us face frailty, memory loss, mobility problems, or chronic diseases that make it challenging to tackle everyday tasks. We understand. And I want you to know that Home Care Assistance would be honored to serve those who entrust their care to you. We're there for the journey.

Serving with compassion and devotion, we are the quality choice for older adults who need help in the home. Our Caregivers fill lifestyle enhancement needs such as bedbound care, companionship, transportation to appointments and outings, light housekeeping, meal planning and preparation, medication reminders, personal care, exercise assistance, and more. However, we do more than that: Our company focuses on the overall well-being of our elder clients. Through our Balanced Care philosophy, our entire team of caregivers and geriatric care managers understands the importance of emphasizing social ties, mental stimulation, physical activity, healthy diet, and a renewed sense of purpose for all clients, no matter their limitations.

We specialize in live-in care for those who realize that around-the-clock care in the comfort of home is a wonderful alternative to a retirement home, assisted living facility, or nursing home. For those whose needs are less, we're also the leading provider of hourly eldercare, providing independence for the 89% of seniors who want to remain at home forever. In short, we enhance their health, safety, and independence of the elderly in our community.

WE'RE SETTING THE STANDARD IN HOME CARE

We have a revolutionary wellness approach to home care called the Balanced Care Method.

We take great pride in employing quality caregivers.

We believe in consistency of care companions.

We are on-call 24/7.

We employ experienced Care Managers to oversee our client/caregiver relationships.

We encourage you to try our services to see if home care is the right fit.

Whether our care companions are working with clients who simply need a friend and helper or are tending to those with Alzheimer's, Parkinson's, stroke recovery, hospice care, post-hospital rehab, or other ailments, we offer expertise beyond that provided by any other company in the region.
