

Dear Representative Barnes

I am writing to you about a legislation act that you are taking part in concerning Ohio liscence. My liscence has been suspended since 2007 for possession of Marijuana and the suspension lasted until 2011 at the time I was in Junior high and I honestly feel that situation has limited my opportunity in my upcoming years.

I had jobs that I had to quit because of my driving circumstance, and also got driving under suspension that extended because I felt I had no other way without a liscence you are dependent on people and public transportation which have been cut back. I agree with lighting up the restrictions on liscence so we can open more opportunity for the public Thanks

Sincerely/  
Antuan Taylor
