

Your state laws that seek to result certain forms of free speech as hate speech is like - calling a spade a diamond, two different-colored and different-shaped suits in a deck of cards.

Your state law to restrict free speech about BDS, boycott, divestment and sanctions against Israel for more than 50 years of brutal, illegal military occupation of Palestine, (can I still say That, here ?) Your state law to restrict free speech about BDS or criticism of Israel on college campuses does not supercede our Constitution, particularly, our Bill of Rights, more accurately, the very First Amendment to the Constitution, Freedom of Speech.

The durability of the First Amendment is now being tested. This is the when the First Amendment is most valuable. This is when we will fight the hardest to preserve our freedom.

It is our duty to fight for our freedom. What's your duty?
