

I am a Mother of a daughter with Cornelia de Lange Syndrome that resides at Flat Rock Care Center, an ICF in Seneca County. Before COVID, I've seen my daughter each week for that last 23 years. She is my heart and soul, my only child. I would cherish being able to help with her care, feeding, diapering, etc. Not being able to spend time with her is simply heartbreaking. I look forward to caring for her in any possible way!
