

My husband entered the assisted living facility at Crane House (Judson) on Feb. 17, 2020. On March 15th, Crane House entered a lockdown with no process for loved ones to visit patients.

In this isolated atmosphere, my husband deteriorated quickly and died on June 6, 2020. I felt arrangements could have been made to allow me to see him, and I was denied until June 2nd, when he was determined to be on End of Life care.
