

I am a parent/guardian of an adult living in an ICF. Over the past 21 years, I had seen my son every day or every other day. I provide all his care. Now, I cannot see him. In a time when it is even more critical (due to staff shortages) to have the parent participation in my child's care, I am shut out. My son does not understand why I am not there. I support HB 770 which would improve safety and the quality of my son's life.

Thank you,

Sharon Honnert
