

Chair Hambley, Vice Chair Patton, Ranking Member Brown, and the members of the House Civil Justice Committee, my name is Patty Ridenour, and I am submitting this testimony in support of House Bill 369, the Ohio Fairness Act.

The Ohio Fairness Act will serve to bring to fruition the traditional phrases we constantly hear but are by no means true. Those phrases are: "All men are created equal" and "Justice for all". Remember those? When are those phrases ever going to be a true reflection of our society? Please vote yes on House Bill 369, the Ohio Fairness Act.

Thank you for your time and consideration.
