Dear Committee Members,

Please do not vote to make HB 796 a law. There will most certainly be people killed that are not 'aggressors'. The bill asks a person to make split second decisions about the presence of a person on public 'property' and whether that person is using force. Rarely can an untrained person make the decision that will be accurate and justified. And if they make the wrong decision, other people will die. This bill will can only result in more gun deaths of innocent people.

Thank you,
Carol Kralik
