

Lawrence J. Block's Testimony

May 1, 2019

The constitution of the United States and Ohio are the framework by which this country and state were founded. The Second Amendment of the United States Constitution states that the "Right to keep and bear arms, SHALL NOT BE INFRINGED". I have been a CCW license holder over the last ten years, have had the training required plus additional training. Having paid the required fees involved in the process. So I believe in the right to "keep and bear arms" BUT I also believe in the second part of the Second Amendment "SHALL NOT BE INFRINGED". I believe that Ohio should pass the House Bill 178 so that law abiding citizens of the state can carry their firearms without infringement from the State of Ohio as stated in the Second Amendment.

Thank you in advance for your vote of approval of Bill HB178. And thank you for your service to the citizens of Ohio.

Sincerely,
Lawrence J Block
