June 2nd, 2020

The Honorable Scott Lipps
Chairman, Health Committee
Ohio House of Representatives
Columbus, Ohio 43215

Dear Chairman Lipps and Members of the House Health Committee—

On behalf of the 2,900 members of the Ohio Chapter of the American Academy of Pediatrics, I am writing today to express our support for House Bill 469, sponsored by State Representatives West and Manchester.

This legislation would prohibit health plans from implementing copay adjuster programs that are harmful to patients in need of expensive prescription drugs. Our members believe that this legislation will provide much needed relief to families who rely on copay assistance programs to help cover the cost of prescription drugs for their children.

Many children with chronic or serious medical conditions require prescription drugs as part of their daily lives. Given that many of these drugs can be expensive, some patients qualify for copay assistance programs offered by pharmaceutical companies or charities. These programs have a significant and positive impact on the families who receive them.

HB 469 would ensure that any copay assistance used would count towards a patient's deductible. This is critical for parents of medically fragile children who often struggle to afford prescriptions, medical bills, and other essentials of daily living.

It is my hope that the committee will favorably report HB 469 in the near future. Thank you for your consideration of this important legislation.

Sincerely,

A handwritten signature in black ink, appearing to read "Melissa Werve Arnold".

Melissa Werve Arnold
Chief Executive Officer
Ohio Chapter of the American Academy of Pediatrics
