

My name is Carrie Brown and I am a resident of Cincinnati Ohio. As an Ohioan and a supporter of Sandy Hook Promise, I urge you to support the SAVE Students Act (HB 123). I am a school based mental health provider (MSW Social Worker) and have personally implemented several of the "Know the Signs" research based prevention programs offered by Sandy Hook Promise Foundation in both the High School and Junior High where I work. I have witnessed both the great need for these programs as well as the tremendous impact and effectiveness they have on students and staff. I feel very strongly that this legislation become a law so that all of Ohio's students and school staff have access to proven prevention programs and trainings as well as to ensure that the programs are properly supported and carried out.

We have the power to prevent future tragedies from happening to our children. Please support the SAVE Students Act as it moves forward.

Sincerely,

Carrie Brown
Cincinnati, Ohio
