Please provide a brief statement on your position:

HB6 gutted Ohio's clean energy and energy efficiency laws and replaced them with increased costs on Ohio electric bills to bail out coal and nuclear plants. We now know HB6 was pushed through the legislature and became law as a result of, as a US Attorney described it, "the largest bribery, money-laundering scheme ever perpetrated against the people in the state of Ohio."

HB6 must have a full and clean repeal. Ohio needs to go back to the drawing board and start all over again.

I also absolutely oppose House Bill 798 which just delays and covers up for more of the underlying issues with HB6.

Please be advised that this form and any materials (written or otherwise) submitted or presented to this committee are records that may be requested by the public and may be published online.
