

Thank you for the opportunity to provide written testimony on HB624.

As an Ohioan, I support HB624 and urge you to vote YES. Ohioans have been asking for transparent and real time data from ODH for months, including not only the positive diagnosis/death statistics, but also the negative test results and recovery statistics. We also need to understand information such as comorbidities in order to make more informed decisions and choices.

It's time to provide Ohioans with all of the facts related to COVID 19.

Respectfully,

Rachel Little
