

Thank you for allowing me sponsor testimony for SB311.

I believe Governor DeWine and the ODH have violated our Constitutional rights with never ending mandates. We have been adversely affected by the current restrictions. My husband and I now own 2 small restaurants, was 3 before Dewine's first shut down, that will not make it through another run of mandates/shut down. We are not alone. Even without a shutdown just the unconstitutional mandates are enough to force a lot of company's out of business. He is causing a mass panic which is making people not patronize their local business's.

I fully support SB311. This must stop. Ohioans need your help. One person should never have this much power without going through the legislative process.

Thank you  
Bobbie Riffe
