

Dear Representative,

I am testifying in favor of SB 311 today as an Ohio Resident, deeply concerned about the courses of action being taken under the emergency powers and the serious effects it is having on all us.

This bill restores balance of power where it should be, between the three COEQUAL branches of Ohio Government and RE-OPENS Ohio.

Our businesses, economy, social, and emotional well-being, as well as, the future of our children is on the line. Our State can not thrive under these continued oppressive orders from our over-reaching Governor.

Please stand up and protect our Ohio Constitutional rights, personal liberties and the future of the state of Ohio by voting YES for SB 311!

Thank You,
Craig T. Miller
