Please provide a brief statement on your position:

Please see attached

Please be advised that this form and any materials (written or otherwise) submitted or presented to this committee are records that may be requested by the public and may be published online.

18th, November, 2020

As a concerned citizen residing in the State of Ohio, I am submitting this Proponent Testimony.

I support SB311 for the following reasons:

Never before have we, in the United States, quarantined healthy people, shut down businesses and caused said businesses to be the enforcement agency of the ODH and Governor De Wine's orders to curb a disease.

In my community, a hair salon has closed, a small Mediterranean restaurant has closed, Golden Corral (a large restaurant) has closed and will never re-open. There are other businesses that will never re-open.

When entering any public establishment, there is such anxiety regarding these orders from the State of Ohio that customers are treated as though they are the enemy.

While we are all concerned for the health and safety of all citizens, health is comprised of more than just not contracting a virus. Mental health, emotional health, economic health, Spiritual health are other aspects that have been ignored.

It is my understanding that SB311 will re-establish checks and balances to our State Government and limit the power of the ODH, and also the Governor as well as restore a more active involvement of the Legislature regarding health mandates.

It is time to restore our civil liberties and remember, that we the people are capable of making decisions regarding our own health needs and respecting the needs of others.

Respectfully,

A handwritten signature in blue ink that reads "Carol L. Hapanowicz". The signature is written in a cursive style with a large, stylized initial "C".
