

Dear Representative,

As a very concerned citizen, I am writing you today to ask that you support SB311. It is important that we rebalance the power between all branches of government and re-open our state. My husband is a small business owner and has been impacted so greatly by the actions taken under the current emergency powers. We need to start thinking of the future beyond COVID-19, and protect our economy and mental health of Ohio residents.

Thank you,
Jenna Beck
