

Chairman Wiggam,

I am writing to you regarding SB 311. As a constituent, I am deeply distressed the authority that should be given to the elected legislature, has been given to the ODH, unelected by the people, and accountable to no one. The heart and soul of a republic is that the PEOPLE give their consent to ELECTED people to represent them. We DID NOT give our consent to unelected ODH bureaucrats who have no accountability.

We are suffering from this over-reach of authority- businesses are failing, families are separated, and we want our autonomy back.

Coming from a medical background, science does not support lock downs. Bureaucrats do.

--

Thank you,

Sheree Boyle
