

I have not received any state unemployment compensation since I signed up on April 6, 2020. I have received two weeks of Federal funds on 4/11 and 4/18/2020. I have now received a notice on the DJFS website that I have a "break in claim" and that I need to contact them via phone for assistance. That has proven to be impossible, their phone system tells me it's too busy and to try later, the online chat is always too busy. I am afraid that I am going to be in financial dire straits if I do not get some help from the state soon. Is there anything you could do to help on this? I realize that everything is overwhelmed with so many being out of work. I don't know what else to do, I would be glad to stay on hold on the phone as long as possible but the system disconnects the call I never get the chance. I am not asking for much, but I need to pay my bills, I don't like this as does anyone, but I am a hard working Ohio resident, born and raised here, I have never reached out to anyone in government before, but this time I need some help.
