Special Requests:

HB 6 should be voted down. It is a bill that subsidizes a company who reportedly made almost a billion dollars profit in the last year. PJM says that the grid does not need the two nuclear plants that HB 6 proposes to subsidize. Davis-Besse can fade into the dustbin of history. Last minute bandages have been applied to ugly HB 6. Whoa! Scrap it, start over and do it right so that in 2025 Ohio will be on the path to a low cost, clean (really clean) electric power system.
