

Senate Energy and Public Utilities Committee
Chair: Steve Wilson. Vice-Chair: Rob McColley
Interested Party Testimony on Senate Bill 346 to repeal HB 6
Girl Scout Troop 45239, Cincinnati, Ohio

December 1, 2020

Chair Wilson, Co-Chair McColley, and Ranking Member Williams,

We are a girl scout troop of western Ohio. We care about the earth and all its living things. We want to help not only our generation but many generations to come. We care about stopping climate change, and we support the repeal of House Bill 6.

HB 6 was passed by cheating. A company paid bribes to Speaker Householder who used the money to buy votes for the law. That's not how democracy is supposed to work. Please repeal the law to restore trust in Ohio's government.

Think about your children. Do you want them to live in a polluted world where they would probably have a shorter life span, and are probably more vulnerable to disease? Clean energy is now cheaper than nuclear power and fossil fuels, and is a healthier choice for Ohio and our world.

Please repeal HB 6 and pass a better, fairer law that supports clean energy.

Thank you,

Luci Allison, Audrey Crawford, Laurel Crawford, Lila Greene, Fatima Malik, Khadija Malik, Lily Tosolt
