

6/21/2020

Chairman Burke, Vice Chair Huffman, Ranking Member Antonio and Honorable members of the Health, Human Services and Medicaid Committee,

My name is Jennifer Norris and I am a Board Certified Naturopath, Board Certified Holistic Health Practitioner and an extremely concerned Ohioan who supports greater checks and balances when it comes to government and/or government agencies. I cannot stress how critical it is to curb the power of the director of health for Ohio and to pass SB311. I understand the need for checks and balances but we have no balances with this current Ohio Revised Code written in 1908. Ohioans need to be protected at all costs and never be faced with these draconian measures and overreach of powers ever again.

The Director of Health now and in the future needs limited power and to be overseen by JCARR.

I urge you all to vote **YES** on SB311.

Thank you for your attention to the above matter.
Be well.

Respectfully,

Jennifer Norris, BCTN, BCHHP
