

This is the 10th year of the establishment of Ohio Asian American Pacific Islander Advisory Council under Governor Strickland in March 2010.

We worked very hard to help our community as well as the community at large in Ohio. We are an underserved community and we are struggling to do everything we can in empowering us to help Ohioan a big lift.

In the next page, I will list our contributions in Economic Developments as well Contributions in Ohio's social/cultural/educational development.

Due to the Covid-19, we cancelled Asian Festival 2020, however, we still raised fund to not only Asian grassroot community organizations as well as Homeless people in Central Ohio through Food of Love project. Furthermore, Just to mention some of what we did and are doing in brief, we have the following endeavor since February 2020.

- *We translated Covid-19 related material in 13 languages and distribute them For various communities for their awareness of the progress in fighting this very dangerous virus attack.

- *Provide masks, gloves, wipes and sanitizers to many Asian communities.

- *Provide funding for SE Asian communities to purchase CD and Notebook for them to continue the lectures by the monks, solving their spiritual problem. Purchasing masks etc.

- *Providing funding for Pakistani, Bangladesh, Indian community to help their student organizations

- *Contracted with a Filipino caterer to deliver food to the elderly

- *Delivering Food and pick up grocery and medicine service to the elderly in the Chinese community

- *Helped several Chinese organizations to purchase more than 12,000 surgical Masks, 32,000 gloves, 52,200 regular masks, 420 N95 masks, and shipped them to Franklin County Emergency Management Unit, OSU Wexner Medical Center, Ohio Health, Mt Carmel Health System etc.

We also launched a project "Food of Love" to support the homeless people with more than 2,250 meals.

It is deeply felt that we don't have enough manpower to resource to do what we would like to accomplish. To be promoted into a Commission, we can accomplish a great for not only Asian Community in Ohio , but also community at large in Ohio.
