

Senator Eklund,

SB 33 is an unnecessary bill. Leave it to judges to decide charges and sentencing for people found guilty in their courts. Mandatory charges and sentencing is a crime against defendants and an insult to the judiciary.

SB 33 also seems skewed to favor the oil and gas industries and its vagueness will certainly lead to a violation of first amendment rights.

Thank you for your consideration of my concerns. I hope you will vote for freedom and autonomy of judges to decide charges and sentencing.

Sincerely,
Peter Gibbons-Ballew
