

Sen. John Eklund,

SB 33 is a real threat to Ohioans concerned about the future of our state and country. It is, and has always been, the choice of citizens to choose civil disobedience to express opposition to something that they consider to be a real threat to the populace as a whole. This bill threatens to take away that right by changing penalties for such expression of opposition from a misdemeanor to a felony. This is a very bad bill, whose intent is to protect the oil and gas industry. Please oppose this.
