

Dear Senator Eklund,

I am writing to urge you to please oppose Senate Bill 33. It is unconstitutional, undemocratic and unfairly singles out one specific industry for extra protection. It is obvious that the intent of the bill is to quell dissent. Our country is founded on our rights to protest and our democracy is built on foundation free speech and the right to dissent. This bill clearly violates that premise. This bill unfairly targets environmental organizations and is also unnecessary. Laws and safeguards are already in place. Please do not support this.

Thank you,

Caty Crabb
