

Good morning, Senator Eklund.

I oppose SB 33 because it gives another it gives another protection to goliath out-of-state oil & gas corporation while squelching the legitimate concerns and assembly of your own Ohio citizens.

Ohio has succeeded in attracting and establishing with permanence the oil & gas industry. It is not time to restrict any checks and balances and rights of assembly at thriving, polluting oil & gas sites.

Thank you for your voting your conscience.

Sincerely,

Patrick Hunkler, 4152 Headley's Mill Road, Pataskala, Ohio 43062
