

My name is Mark Akridge and I am from Dayton Ohio, I've worked on issue 1 with the Miami valley organizing collaborative. My thoughts on this issue are that they should definitely give the felons a second chance because I know family members personally going through not being able to provide for there families because of their decisions. I feel like this bill could and will help these felons alot not only with jobs but also with their families because it also shows they are trying to be a better person for not only themselves but their families. I think the bill needs to change in order to help these men and women become better people because in reality everyone deserves a second chance.
