

My name is Robin Turner from Cleveland Ohio which is Cuyahoga County. I'm Currently a community organizer with Ohio organizing collaborative. First and foremost I want to thank you for taking on issue 1 even though the criminal justice system needs a complete overhaul, today I want to talk about Senate Bill 3. The reason I care about sb3 is because so many of my close family and friends have been negatively impacted By the ramification of sentencing and criminalization of this . Sb3 has some very positive things about it, it has the potential to bring wholeness to the community and families also with the reclassification part will have a huge impact in a very positive way . sb3 has some opportunities as well or shall I say to be great. By making sure this bill is retroactive using some type of electronic monitoring in the community and community-based Corrections. Thank you for your time .
