

I would be willing to testify before the Ohio Senate advocating the retention of the current state statute requiring front license plates.

In the early 1980's I was able to assist two different suburban Cleveland Police Departments, via a front plate.

In one instance, it involved a burglary in East Cleveland, for which I received a Crime Prevention award and a cassette tape of the Police pursuit after my call to them. In the instance of Moreland Hills I assisted in identifying a hit-and-run motorist via the front plate.

Please do consider my offer to testify at any state assembly hearings on front license plates.

P.S. I have a son servicing as an U.S. Army Captain and I have a son-in-law policeman
